

Welcome to Season 10!

It is hard to believe we are beginning our tenth season at MC Dance! What started as a dream has grown into an incredible community of dancers, families, and teachers who make our studio so special.

This anniversary season is a celebration of every dancer who has stepped through our doors, every family who has supported us, and every memory we have made together. I am so grateful that your family is part of our story.

We have an exciting year ahead filled with growth, friendships, performances, and plenty of dancing! Thank you for trusting us with your dancers and helping us celebrate A Decade of Dance. Here's to making Season 10 our best season yet!

Why Acro Matters in Dance

Acrobatics helps dancers build strength, flexibility, balance, coordination, and confidence. By safely learning skills such as handstands, cartwheels, walkovers, and aerials, dancers gain better body control and can add exciting elements to their choreography. Acro training supports stronger, more versatile dancers—both in the studio and onstage!
